

CHAPTER 1 - INTRODUCTION

WELCOME TO THE PLANES OF JUST AIRCRAFT LLC.

With the purchase of your Just Aircraft kit, you have just become the owner of United States newest Experimental – Light Sport Aircraft and Britain’s newest microlight. Pilots who have flown it have all agreed that it is like flying a ‘real’ airplane, only smaller. Our aircraft has side-by-side seating, dual control with individual sticks and not only the choice of tri-gear or tail-wheel configuration but also the ability easily to be swapped from one to the other should you wish to. Also the wings can be folded by one person in about three minutes.

The Escapade model has been fully tested to meet the UK’s **BCAR SECTION S** it also meets the **EXPERIMENTAL** and **LIGHT SPORT AIRCRAFT** (USA) requirements. Having excellent handling characteristics and performance together with outstanding visibility and a comfortable cockpit (fit for pilots and passengers of just about any size or height), our aircraft is an enjoyable aircraft to fly. With its fully enclosed chrome-moly steel fuselage and optional cabin heat it can be flown all year round, and with the many options available you can easily build up your aircraft to be a truly impressive craft. Whichever way you finish it you can land and take off in places smaller aircraft would never dream of trying. We have combined the looks and feel of a real airplane with many convenient features and AFFORDABILITY.

Before building your Escapade or Highlander, please take time to read through the entire manual. We hope it will be helpful but please call if you have any questions or comments, we will be more than happy to help if we can. We can also put you in touch with other builders - just call us and we will direct you to the ones in your area or look on the web at “Wings Forum – Just Aircraft” to talk to other owners / builders. Please don’t hesitate to call us at (864) 718-0320 or fax us at (864) 718-0324, or visit our Just Aircraft website – with its regular updates - at www.justaircraft.com or email us using justaircraft@netzero.net.

Thank you again for your purchase of your Just Aircraft.
