

CONTENTS

CHAPTER/Section	TITLE	PAGE
✈ CHAPTER 1	INTRODUCTION.....	1- 1
✈ CHAPTER 2	GENERAL INSTRUCTIONS.....	2- 1
2.1	Safe working practices	2- 2
2.2	Parts numbering.....	2- 2
2.3	Tools.....	2- 3
2.4	Marking out.....	2- 3
2.5	Deburring and countersinking instructions	2- 4
2.6	Reaming.....	2- 4
2.7	Metal preparation and corrosion prevention.....	2- 5
2.8	Fastener rules.....	2- 5
2.9	Preparing for bonding.....	2- 5
2.10	Mixing and applying adhesive.....	2- 6
2.11	Working with Dacron covering.....	2- 7
2.12	Electrical components and wiring.....	2- 7
2.13	Swaged cable ends.....	2- 7
2.14	Lubrication	2- 7
2.15	Additional material.....	2- 8
2.16	Working with turnbuckles	2- 8
✈ CHAPTER 3	LANDING GEAR.....	3- 1
3.1	Tailwheel assembly	3- 2
3.2	Main gear wheel assembly (drum brakes).....	3- 3
3.3	Main gear axle and drum brake assembly	3- 3
3.4	Nose wheel assembly and fitting.....	3- 5
3.5	Tail skid.....	3- 8
3.6	Main gear axle and hydraulic disc brake assembly	3- 8
3.7	Main gear shock absorbers (bungee).....	3- 9
3.8	Main gear brake controls	3-10
✈ CHAPTER 4	RUDDER CONTROLS	4- 1
4.1	Rudder installation.....	4- 2
4.2	Rudder pedal installation.....	4- 4
4.3	Operating cable installation.....	4- 4
4.4	System rigging.....	4- 8
4.5	Heel brake pedal installation	4- 8

✈	CHAPTER 5	PITCH CONTROLS	5- 1
5.1		Tailplane (Horizontal stabiliser) Installation.....	5- 2
5.2		Trim Tab Installation.....	5- 6
5.3		Elevator Installation.....	5- 7
5.4		Elevator Control Installation.....	5- 8
✈	CHAPTER 6	FUSELAGE ASSEMBLY COMPLETION	6- 1
6.1		Firewall Installation.....	6- 2
6.2		Fuselage Stringer Installation.....	6- 3
6.3		Aileron Pulley Installation.....	6- 6
6.4		Header Tank Installation.....	6- 6
6.5		Seat and Harness Installation.....	6- 7
6.6		Butt Ribs and Windshield Brackets.....	6-12
6.7		Turtle Deck.....	6-14
6.8		Battery Installation.....	6-14
6.9		Instrument Panel.....	6-15
6.10		Flap Handle Installation.....	6-17
6.11		Cowlings.....	6-20
6.12		Windshield Front Angle Braces.....	6-22
6.13		Windshield Fitting.....	6-23
6.14		Throttle and Carb Heat Installation.....	6-26
6.15		Manual Trim Installation.....	6-26
6.16		Electric Trim Installation.....	6-26
6.17		Installation of Lexan Doors and Windows.....	6-26
6.18		Transportation Jury Struts.....	6-28
6.19		Inspection Panel.....	6-29
✈	CHAPTER 7	WING PREPARATION AND ASSEMBLY	7- 1
7.1		Wing assembly jig.....	7- 2
7.2		Spar and rib preparation.....	7- 5
7.3		Drag tube and tip brace preparation.....	7- 5
7.4		Rib location.....	7- 6
7.5		Preparation of drag and wing tip braces.....	7- 7
7.6		Setting washout.....	7- 8
7.7		Preparation for epoxy bonding.....	7- 9
7.8		Mixing epoxy adhesive.....	7-10
7.9		Applying adhesive.....	7-10
7.10		Fitting drag/stringer tubes and wing tip braces.....	7-10
7.11		Applying pressure to the bonded joints.....	7-11
7.12		Allow adhesive to harden.....	7-12
7.13		Lift struts.....	7-12
7.14		Lift strut brackets.....	7-12
7.15		Installing the I-beam extrusions.....	7-14
7.16		Preparing and bonding lift strut brackets.....	7-17

✈	CHAPTER 8	FITTING AND SETTING WINGS TO FUSELAGE	8- 1
8.1	Preparing the rear spars	8- 2
8.2	Fitting the lift struts to the fuselage	8- 4
8.3	Installation and set up of the wing	8- 4
8.4	Installing wing joint doublers	8- 8
8.5	Fitting wing tank(s)	8-10
8.6	Fitting wing trailing edge	8-12
8.7	Preparation of trailing edge for control surface hinges	8-13
✈	CHAPTER 9	AILERONS	9- 1
9.1	Setting out building board	9- 2
9.2	Preparation of spar	9- 3
9.3	Aileron - first stage assembly	9- 3
9.4	Installation of the trailing edge	9- 4
9.5	Preparation of the hinges	9- 6
9.6	Installation of hinges and bellcrank	9- 6
9.7	Installation of leading edge	9- 8
9.8	Fitting aileron to wing	9-10
9.9	Preparing aileron for covering	9-13
✈	CHAPTER 10	FLAPS	10- 1
10.1	Setting out the building board	10- 2
10.2	Preparation of spar	10- 2
10.3	Flap first stage assembly	10- 3
10.4	Installation of the trailing edge	10- 4
10.5	Preparation of the hinges	10- 5
10.6	Installation of hinge and bellcrank	10- 5
10.7	Installation of leading edge	10- 6
10.8	Fitting flap to wing	10- 7
10.9	Preparing flap for covering	10-10
✈	CHAPTER 11	INSTALLATION OF AILERON/FLAP CONTROLS ...	11. 1
11.1	Mounting the aileron pulleys	11- 2
11.2	Aileron control cables – first stage make up	11- 4
11.3	Routing of aileron cables	11- 5
11.4	Finalising aileron cable runs	11- 6
11.5	Mounting the flap pulleys	11- 8
11.6	Flap control cables – first stage make up	11- 9
11.7	Routing of flap cables	11- 9
11.8	Finalizing flap cable runs	11-10
11.9	Aileron/flap control stops	11-11

✈	CHAPTER 12	FINISHING THE WINGS	12- 1
	12.1	Jury strut attachment.....	12- 2
	12.2	Installing the pitot and static tubes	12- 3
	13.1	Working with Dacron covering	13- 2
	13.2	Hints and tips	13- 2
	12.5	Wing tips	12- 8
✈	CHAPTER 13	FABRIC AND PAINT	13- 1
	13.1	Working with Dacron covering	13- 2
	13.2	Hints and tips	13- 2
✈	APPENDIX A	TEMPLATES	A-1
	A1	Flap/Aileron cable positioning template.....	2
	A2	Fabric plates:	
		Pulley Cover Plate.....	3
		Pages.....	4-6 Left Blank
		Flap fabric plate.....	7
		Aileron top fabric plate.....	8
		Aileron bottom fabric plate.....	9
		Aileron bottom cover plate	10
		Front lift strut fabric plate.....	11
		Rear lift strut fabric plate.....	12
	A3	Oil Check Door.....	13
✈	APPENDIX B	WEIGHT AND BALANCE	B-1
✈	APPENDIX C	OUTLINE DRAWINGS (FOR PAINT TRIM ETC.)	C-1
✈	APPENDIX D	RANGE OF MOVEMENTS	D-1
